Progressive Insurance

Progressive began in 1937, and over the years, has worked hard to build a superior proposition for auto insurance consumers through competitive pricing and by continuously improving products and services. Today, they offer competitive rates and 24-hour, in-person and online services to all drivers throughout the United States. Progressive customers can purchase auto insurance directly online or by phone, or they can purchase from independent insurance agents. Progressive's vision is to reduce the human trauma and economic costs associated with automobile accidents. They do this by providing customers with services designed to help them get their lives back in order again as quickly as possible. Governing their vision, decisions and behavior are its Core Values — pragmatic statements of what works best for them in the real world. Study: Inflation Could Impact P/C Industry In Coming Years. A new study by Conning Research and Consulting on inflation and inflation volatility warns property/casualty insurers that the next few years could be turbulent. Stephan Christiansen, director of research at Conning, stated: "While the insurance industry has dealt with inflation and associated volatility in the past, there has been little inflationary impact in the past 15 years. As we look ahead, there appears to be increased prospects for inflation in components that could have significant impacts on insurer operating results and economic value, both good and bad."
