

Prior to working for JP Maguire Associates, I was a police officer for 16 years and started a high performance insulation and contracting construction company for new and remodeled homes. I have spent a great deal of my life in service to my community, helping people in their time of need. That made the transition to JP Maguire Associates an easy one. I am still able to help people in a time of need, while providing the client valuable insight into the building processes and science.

Every situation of dealing with a client has been a new experience and one for me to learn and grow. In most cases, I am dealing with clients who have experienced a loss of some type from something as small as a flooded basement to the complete devastation of losing their entire home in a fire. While no matter what the loss, the most important thing is that all the family members are safe, but knowing I work for a company that puts the client first makes all the difference for me to do my job successfully. JP Maguire Associates will do what is necessary to make our customers whole and bring stability to their lives.

JP Maguire Associates is a full service property damage and restoration company from board-up to reconstruction. They have been working closely with Connecticut insurance companies and agents for more than 35 years.

For me it was clear decision to become a member of the CT-YIPs. I see CT-YIPs as a way to get more involved with insurance industry professionals and network with my peers.
